DETAILED ACTION

1. Applicants' Response to Office Action, received 22 October 2010, is acknowledged.

Claims 33, 40, 41, 42 and 43 have been amended.

2. Claims 19-21 and 23-43 are pending and under consideration.

Rejections Withdrawn

3. The rejection of claim 33 under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, is withdrawn in light of the amendment of the claim.

Rejections Maintained

4. The rejection of claims 23-36 and 40-43 under 35 U.S.C. 112, second paragraph, as being indefinite for sequences of $\geq 80\%$ homology, is maintained.

Applicant argues that identifying a set of sequences which are similar in sequence (i.e., dominant sequence and sequences having $\geq 80\%$ homology to the dominant sequence) it is possible to identify sequences which are responsible for the binding specificity of antibodies to the antigen in question. In addition, antibodies with CDR3 regions having sequences of $\geq 80\%$ homology can reasonably be expected to target the same antigen.

The examiner has considered applicant's argument, but does not find it persuasive for the reasoning put forth in the original rejection. While a dominant sequence is tested for binding specifically to the antigen produced by *C. difficile*, there is no support in the specification to show that any sequence with 80% or greater homology actually binds to the same antigen that the dominant sequence binds. Thus, it remains unclear how one substantiate that any sequence other than the dominant sequence binds to said antigen.

Conclusion

5. Claims 23-36 and 40-43 are rejected.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
